ELF™ IS

ELEMENTARY LEARNING FUN

*Please feel free to take this brochure home with you. It describes how any parent with a valid library card can obtain a copy of the **ELF™** Child-Safe Browser **FREE OF CHARGE** for her / his child to use on a Windows-based internet home computer today.*

HOW DOES **ELF**[™] KEEP MY CHILD SAFE?

The **ELF**[™] program **checks every piece of content** before it is displayed to ensure that the material is coming from a provider specifically approved by your library and AWE (the maker of **ELF**[™]).

WHAT DO I NEED TO RUN **ELF**[™] AT HOME?

All you need is a computer running any version of Microsoft Windows[™], 25 MB of free disk space, and a broadband internet connection.

DOES **ELF**[™] EVER CHANGE?

Yes. AWE constantly seeks out and adds new high-quality educational materials. Your library may also add (or remove) sites from the safe website list. New features are added automatically, there's no fuss and no work to do!

WHAT IS **ELF**[™] & WHY DO I WANT IT?

ELF[™] allows your child to safely access carefully chosen, highly engaging, free-use educational resources on the internet. Children may work either with adults or on their own. With **ELF**[™], parents can know that their child is visiting **only** sites that are wholesome, educational, and fun.

HOW MUCH DOES **ELF**[™] COST?

For the next school year, it's **FREE**, thanks to the investment made by your public library that has provided you with your copy of **ELF**[™] and which, along with AWE, will be maintaining the list of approved sites. During that time, upgrades will arrive automatically, and will also be free of charge!
